

TECHNICAL DATA SHEET

SK2RIM000-1 Resin line clamp

► DESCRIPTION

The clamp can be used in resin infusion process for clamp each hoses separate to stop the flow of resin. The surface is special treated to make the clamp not slippery. The pliers can be adjusted depend of the size of the tube you are using.

This product is used in various manufacturing processes of parts made of composite materials.

► TECHNICAL DATA

Material type:	Nickel plated steel
Plier length:	20 cm
Flange width:	8 cm
Weight:	495g

Shelf life: not limited.

Storage conditions: it is recommended to store at temperature from -20°C till + 30°C in the original packing.
