

TECHNICAL DATA SHEET

SK2RIM120-6 Resin and vacuum tube

► DESCRIPTION

This tube is made for using in resin infusion process for creation of vacuum channels and resin inlet channels where working temperature of 120° is requested.

This product is used in various manufacturing processes of parts made of composite materials.

► TECHNICAL DATA

Color: White
Recommended use temperature: 121°C
Maximum use temperature*: 150°C

► SIZE

Inside diameter	Outside diameter	Packaging
6mm	8mm	30m/roll
10mm	12mm	30m/roll
10mm	16mm	30m/roll

Shelf life: not limited

Storage conditions: it is recommended to store at temperature from -20°C till + 30°C in the original packing.

► NOTE

MOQ is 1 roll. Other diameters, lengths and colors are available on special order.

* Maximum use temperature should be determined in actual process conditions.

The maximum use temperature depends on the duration at maximum temperature and is process specific, we recommend testing prior to use.
