

TECHNICAL DATA SHEET

SK2BB205-2 FR Fire Retardant Breather/bleeder

► DESCRIPTION

This light weight non-woven fire retardant polyester breather could be used for medium pressure curing. It is stretchable and has good drapability. All breathers with mark "FR" (fire retardant) are recommended for use in non-inert curing atmosphere.

This product is used in various manufacturing processes of parts made of composite materials.

► TECHNICAL DATA

Material type:	Polyester FR
Weight:	140g/m ²
Maximum use temperature	205°C
Recommended pressure:	up to 3,5 Bar
Color:	White

► SIZE

Width	Length
1500mm	100m

Shelf life: not limited.

Storage conditions: it is recommended to store at temperature from -20°C until +30°C in the original packing.

► NOTE

Other widths are available on special order.
