## SK2BB205-4 FR

### Fire Retardant Breather/bleeder

#### ► DESCRIPTION

This heavy weight non-woven fire retardant polyester breather is used for high pressure cycles. It offers good elongation and avoids any sharp radius for vacuum bag protection. All breathers with mark "FR" (fire retardant) are recommended for use in non-inert curing atmosphere.

This product is used in various manufacturing processes of parts made of composite materials.

#### ► TECHNICAL DATA

Material type:	Polyester FR
Weight:	340g/m <sup>2</sup>
Maximum use temperature	205°C
Recommended max. pressure:	up to 7 Bar
Color:	White

#### ► SIZE

Width	Length
1500mm	50m

Shelf life: not limited.

Storage conditions: it is recommended to store at temperature from -20°C until +30°C in the original packing.

#### ► NOTE

Other widths are available on special order.
