

TECHNICAL DATA SHEET

GMIAC027-3

Plate for manufacturing of templates

► DESCRIPTION

Flexible plate is for manufacturing of leading template for stepping and scarfing of curvilinear surfaces.

GMI
AERO

The plate is used in cases when the standard templates, which are included in Set of repair tools "LESLI" don't approach, or templates are worn-out and have to be replaced.

This product is used in various repair processes of parts made of polymer composite materials.

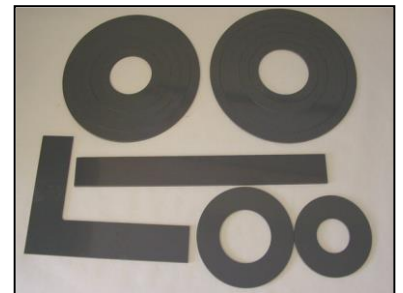

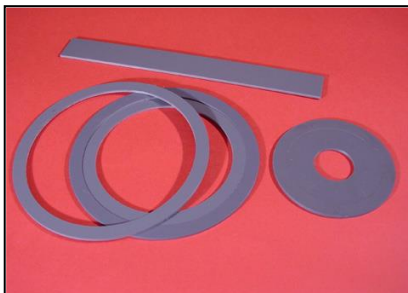

► TECHNICAL DATA

Type of material:

PVC

Weight:

750g/m²
