## SK3ROL-1 Hand roller

### ► DESCRIPTION

Hand roller for prepreg layer compaction and sealant tape application.

The roller insures proper adhesion between film and sealant tape, and between sealant tape and tool during the bag sealing. It is specially designed to save time and labour. The roller has an inert plastic roller, a steel frame and a wooden handle.

This product is used in various manufacturing processes of parts made of composite materials.

### ► TECHNICAL DATA

Material type roller: Inert plastic  
Color: Grey

Shelf life: unlimited
