

# TECHNICAL DATA SHEET

## SK3MEM150-1

One-way permeable material

### ► DESCRIPTION

SK3MEM150-1 is one-way breathable materials made of special peel ply with barrier coating film on one side. The product is used for processes for evacuating air and volatiles continuously and preventing the resin from going through. It can be used with epoxy, polyester and vinylester resins.

### ► TECHNICAL DATA

Material type:	polyamide peel ply + barrier coating
Color:	white/blue
Weight:	140 g/m <sup>2</sup>
Air permeability:	1.2l/m <sup>2</sup> /s
Recom. working temperature:	150°C
Maximum use temperature:	177°C

### ► SIZE

Thickness	Width	Length
0,2 mm	1470 m	150 m

Shelf life: not limited

Storage conditions: it is recommended to store at temperature from +10°C till + 30°C in the original packing.

### ► NOTE

Other widths and length of roll available at special order.

The maximum use temperature is dependent upon the duration at maximum temperature and is process specific. Testing prior to use is recommended.
