

TECHNICAL DATA SHEET

SK2AT204-6 Adhesive tape

► DESCRIPTION

Our SK2AT204-6 heat-resistant, high strength polyester tape covered on one side with temperature-resistant, acrylic-based adhesive is developed for applications where the use of silicon adhesive is unacceptable. SK2AT204-6 can be used in ovens and autoclaves for masking-off, holding down vacuum bagging materials and thermocouple wires.

The tape removes easily after the cure.

This product is used in various manufacturing processes of parts made of composite materials.

► TECHNICAL DATA

Carrier type:	Polyester
Adhesive type:	Acrylic
Colour	Green
Total thickness:	65µm
Carrier thickness:	25µm
Adhesive thickness:	40µm
Recommended use temperature:	204°C
Maximum use temperature*:	230°C
Elongation:	>90%

► SIZES

Width	Length	Packaging
25mm	66m	40 rolls/box
50mm	66m	20 rolls/box

Shelf life: 12 months minimum in the original packing.

Storage conditions: It is recommended to store the product at temperature from +10°C until +30°C in the original packing.

► NOTE

The tape with liner is available on special order.

Other widths (till 1000mm) are available on special order.
