PTFE coated glass fabric adhesive tape

► DESCRIPTION

Adhesive tape SK2AT260-8 is PTFE coated glass fabric self-wound adhesive bundling end turns, spot bundling, anchor breakouts and to protect airframe wire harnesses. These tapes provide a slick surface on process machinery and offers an extremely low coefficient of friction which, in combination with a pressure sensitive silicone adhesive, creates a non-stick surface that performs at elevated temperatures.

This product is used in various manufacturing processes of parts made of composite materials.
