

«VIK-COMPOSITE» GmbH Introduces a new product

Our new adhesive spray for temporary positioning of layers: AIRVIK-9

- Strong spray adhesive optimally suitable for temporary placement on vertical or difficult surface areas for fibers, foams, core and ancillary materials;
- Our new adhesive does not have strong smell and it is quite comfortable to work with;
- It does not leave any stains or marks on textile materials;
- Easy to apply, the spray is homogeneous and covers a large surface simultaneously;
- Cost-effective;
- Only after 10-20 seconds you can bond plies together and surface remains long time tacky so that you can make corrections of layer positioning;
- Easily sprayable without droplet formation.

To have more information, to order a sample or to have a sales quotation we kindly ask you to contact us by phone: +49 (0) 7171 874 29 23 or by Email: sales@vik-composite.com

Our new adhesive spray is available in stock!
