

TECHNICAL DATA SHEET

SK2PP190-2 Tight woven peel ply

► DESCRIPTION

SK2PP190-2 is a light polyamide tight woven peel ply with good performance when used with epoxy, vinyl and polyester resins in the process till 190°C. It has red tracers with high visibility to reduce the risk of peel ply being left on the part. SK2PP190-2 gives a slightly textured surface to the laminate that allows making secondary operations such as bonding or painting.

This product is used in various manufacturing processes of parts made of composite materials.

► TECHNICAL DATA

Material type:	Nylon (Polyamide)
Color:	White
Stripes:	Red
Surface weight:	64 g/m ² ± 10%
Max. use temperature*:	190°C

► SIZE

Thickness	Width	Length
70µm	1570mm	100m

Shelf life: unlimited

Storage conditions: it is recommended to store at temperature from -20°C until +30°C in original packing.

► NOTE

Peel plies are treated in order to remove all pollutant products (like silicones for example), which could be found on the laminate.

Other weights or special sizes available on request.

* Maximum use temperature should be determined in actual process conditions.

The maximum use temperature depends on the duration at maximum temperature and is process specific, we recommend testing prior to use.
