

TECHNICAL DATA SHEET

SK3ES-1 Electric hot scissors

► DESCRIPTION

SK3ES-1 is electric hot scissors for cutting and edge sealing of synthetic and mixed fabrics in order to prevent fibers come off, which could create FOD (Foreign Object Debris) in the laminate. It allows sealing of the cut edge without hardening. The cut edge remains "soft" and flexible.

This product is used in various manufacturing processes of parts made of polymer composite materials.

► TECHNICAL DATA

Power:	60W / 220V
Temperature max.:	330°C
Regulation:	Stepless
Cutting length:	10cm
Applications:	Synthetic fibre, mixed fabric
