

TECHNICAL DATA SHEET

SK2VV270-8 Fitting

► DESCRIPTION

Barb coupling fitting with male screw end in 1/4 inches, connection size 3/8 inches for installation inside the hose and fixing internal spring.

This product is used in various manufacturing processes of parts made of composite.

► TECHNICAL DATA

| | |
|--------------------------------|--------------------------|
| Material type: | Brass |
| External diameter barbed side: | 3/8 inch |
| End fittings: | 1/4 inch male NTP or BSP |
| Maximum use temperature*: | 270°C |
| Maximum autoclave pressure*: | 20 Bar |

Storage conditions: it is recommended to store at temperature from -20°C until +30°C in the original packing.

► NOTE

* Maximum use pressure and temperature should be determined under your actual process conditions.

Recommended maintenance interval: 1000 hours based on operating temperatures up to 180°C when using with our connections.
