

SK2AT180-3 is a clear polyester tape with a yellow rubber-based pressure sensitive thermosetting adhesive system. This tough and abrasion resistant tape is used for electrical applications requiring temperature performance up to 130°C and non-corrosive adhesive systems. It conforms exceptionally well to irregular surfaces.

TECHNICAL DATA	VALUE
Carrier type	Polyester
Adhesive type	Rubber
Color	Yellow
Elongation at break	100%
Maximum use temperature*	180°C

**SIZE**

Total thickness	85 µm
Carrier thickness	50 µm
Adhesive thickness	35 µm
Width	25 mm, 50 mm
Length	66 m

**STORAGE**

Shelf life: minimum 12 months in original packaging  
 Storage: store in a cool, dry place in the original packaging, protected from direct sunlight and other heat sources

**NOTES**

\*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.  
 Custom sizes available upon request
