

# SK2AT200-1

## Double side coated adhesive tape

The tape is an all-purpose, high temperature resistant double-backed holding tape. It is a polyester film coated on both sides with acrylic adhesive. Tape is designed to hold secondary bonded details, spiral wrap in the high temperature resin infusion process, release plies, films and breathers in place during lay-up and machining operations. The tape can be used as well for holding in place honeycomb core during machining.

TECHNICAL DATA	VALUE
Carrier type	Polyester
Adhesive type	Acrylic
Color	White
Color of liner	Red
Elongation at break	50%
Maximum use temperature*	200°C

### SIZE

Total thickness	210 µm
Carrier thickness	80 µm
Combined adhesive thickness	130 µm
Width	12 mm, 19 mm, 25 mm
Length	50 m

### STORAGE

Shelf life: minimum 12 months in original packaging  
 Storage: store in a cool, dry place in the original packaging, protected from direct sunlight and other heat sources

### NOTES

\*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.  
 Custom sizes available upon request  
 Maximum width – 1000 mm
