

# SK2AT200-3

## High temperature double side coated adhesive tape

SK2AT200-3 is an all-purpose double-backed polyester tape with a high tack pressure sensitive adhesive system, coated on both sides with a non-silicone adhesive. It is used in different applications like holding and fixing of release plies, release films and breathers and materials during lay-up, vacuum bagging operations and curing process to avoid process errors and to improve part quality. SK2AT200-3 provides fast, simple and clean application. Its high adhesive system is UV and chemical resistant. High quick-stick adhesive provides rapid, secure bonding across diverse surface types.

TECHNICAL DATA	VALUE
Carrier type	Polyester
Adhesive type	Acrylic
Color	White
Elongation at break	< 50%
Maximum use temperature*	205°C

### SIZE

Total thickness	100 µm
Carrier thickness	10 µm
Combined adhesive thickness	90 µm
Width	25,4 mm and 50,8 mm as standard
Length	33 m

### STORAGE

Shelf life: minimum 12 months in original packaging  
Storage: store in a cool, dry place in the original packaging, protected from direct sunlight and other heat sources

### NOTES

\*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.  
Custom sizes available upon request
