

SK2AT200-7

Double-sided polyester film adhesive tape

SK2AT200-7 is a double-sided polyester film tape with acrylic adhesive coating on both sides. It delivers exceptional bonding strength, high adhesion, and reliable sticking performance across diverse applications.

| TECHNICAL DATA | VALUE |
|-----------------------------|-------------|
| Carrier type | Polyester |
| Adhesive type | Acrylic |
| Color of carrier | Translucent |
| Color of liner | Yellow |
| Yellow glassine paper liner | 90 g |
| Maximum use temperature* | 205°C |

SIZE

| | |
|--------------------|-----------------------------|
| Total thickness | 125 µm |
| Carrier thickness | 12 µm PET |
| Adhesive thickness | 56,5 µm x 2 |
| Width | 25 mm and 50 mm as standard |
| Length | 50 m |

STORAGE

Shelf life: minimum 12 months in original packaging
 Storage: store in a cool, dry place in the original packaging, protected from direct sunlight and other heat sources

NOTES

*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.
 Custom sizes available upon request
