

SK2ST150-2 is economical sealant tape for vacuum bagging applications where cost is a primary consideration. This tape maintains a good vacuum seal for vacuum bagging applications from room temperature to 150°C. It removes easily from all types of tools without residues. It is ideally suited for debulking operation and resin infusion processes. For clean removal, it is recommended to strip the tape from the mould surface once it has cooled down to room temperature.

TECHNICAL DATA	VALUE
Material	Synthetic rubber
Color	Yellow
Maximum use temperature*	150°C (bag to tool) 180°C (bag to bag)

SIZE

Thickness	3 mm
Width	12 mm
Length	15 m
Rolls in Box	18 rolls

STORAGE

Shelf life: minimum 36 months when stored properly.

Storage conditions: store at 10–30°C in original packaging, shielded from direct sunlight and heat sources

NOTES

*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.
