

PTFE coated very light fibreglass fabric, which provides controlled porosity and release from all conventional resin systems. Product will allow excess resin, volatiles and trapped air to escape into the breather during cure.

TECHNICAL DATA	VALUE
Fibre	Glass
Color	Brown
Weight	68 g/m <sup>2</sup>
Thickness	75 µm
Weave	Plain
Maximum use temperature*	260°C
PTFE content	29 %

**STORAGE**

Shelf life: unlimited.  
Storage conditions: store at 10–30°C in original packaging, shielded from direct sunlight and heat sources

**NOTES**

Special sizes available on request.  
\* Maximum use temperature should be determined in actual process conditions. The maximum use temperature depends on the duration at maximum temperature and is process specific, we recommend testing prior to use.

Technical values are provided to the best of our knowledge and are based on data considered reliable. Users are responsible for verifying suitability and assume all associated risks.
