

The resin line clamp is designed for resin infusion processes, allowing individual hoses to be clamped separately to control or stop resin flow independently. It features a specially treated surface for non-slip handling during use and is adjustable to accommodate various tube sizes commonly used in resin infusion processes

TECHNICAL DATA	VALUE
Material	Nickel plated steel
Plier length	20 cm
Flange width	8 cm
Weight	495g

**STORAGE**

Shelf life: unlimited.

Storage conditions: store at 10–30°C in original packaging

**NOTES**
