

L-fitting with barbed connections, designed for low-temperature resin infusion processes.

| TECHNICAL DATA              | VALUE |
|-----------------------------|-------|
| Material                    | PP    |
| Color                       | White |
| Recommended use temperature | 90°C  |
| Maximum use temperature*    | 120°C |

| REFERENCE         | OUTSIDE DIAMETER | TUBE INTERNAL DIAMETER |
|-------------------|------------------|------------------------|
| SK2RIM90-3WH88L   | 8mm x 8mm        | 8mm                    |
| SK2RIM90-3WH1010L | 10mm x 10mm      | 10mm                   |

**STORAGE**

Shelf life: unlimited.

Storage conditions: store at 10–30°C in original packaging

**NOTES**

Custom sizes available upon request.

\*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.
