

SK2ST120-1 is standard sealant tape for vacuum bagging applications where cost is a primary consideration. This tape maintains a good vacuum seal for vacuum bagging applications from room temperature to 120°C. It removes easily from all types of tools without residues.

It is ideally suited for debulking operation and resin infusion processes. For clean removal, it is recommended to strip the tape from the mould surface once it has cooled down to room temperature.

TECHNICAL DATA	VALUE
Material	Synthetic rubber
Color	Black
Maximum use temperature*	120°C

Instructions for application:

The surface should be clean, dry, smooth and dust-free.

- Place the stripe into the surface avoiding air bubbles with release paper on top;
- Remove the easy peel release film;
- Lay the film on top of the strip;
- Apply pressure by hand and/or roller SK3ROL-1 to ensure tight connection;

SIZE

Thickness	3 mm
Width	12 mm
Length	15 m
Rolls in Box	20 rolls
MOQ	1 box

STORAGE

Shelf life: 24 months minimum in the original packing.
Storage conditions: it is recommended to store flat in original packing at temperatures between +10°C and +30°C

NOTES

*Maximum use temperature should be determined in actual process conditions. We recommend to test the product before use in serial production.
