SK3CUT-9

Scissors Grinding Machine

SK3CUT-9 - scissor grinding machine, made by Maier, satisfying demands of perfect cutting edges on scissors of any kind and size. The scissors are tightly fixed and the easily movable grinding arm guarantees secure grinding, ensuring no displacement during grinding. The cutting angle may be adjusted from 0 to 60 degrees. This machine solves the problem of poor cutting scissors in a simple and very economical way. Dull scissors can be reground immediately, without waiting time.

This product is used in various manufacturing processes of parts made of composite materials.

TECHNICAL DATA	VALUE
Grinding spindle speed	approx. 2 850 rpm
Capacity	20-30 scissors per hour
Motor	230V, 50Hz, 375W
