

SK2RIM125-1 is a sewed tubular knitted mesh designed to include a spiral wrap with the outside diameter till 13mm. Use of this sleeve allows to prevent mark-off of a spiral tube on the surface of the composite laminate. The special "stalk" stitched 2 times reduces labor costs on installation of sleeve by applying of the vacuum, allowing to place easily and precisely a spiral tube into a pleat in the vacuum bagging film.

TECHNICAL DATA	VALUE
Material type	HDPE
Color	Black with yellow stitch
Configuration of net	Knitted
Maximum use temperature	125°C

THICKNESS	BASE WIDTH	LENGTH
1,1mm	75mm	50m

STORAGE

Shelf life: not limited
 Storage conditions: it is recommended to use at temperature from -20°C until +30°C.

NOTES

MOQ is 1 roll. The tube is sold without the spiral. Other sizes are available on special order.
