

SK2AT180-1 is polyester tape coated rubber adhesive. This tape is designed for holding vacuum bagging materials and thermocouple wires on metal or composites parts and tools in sensitive areas where silicone adhesive is not permitted. The tape removes easily after the cure.

TECHNICAL DATA	VALUE
Carrier type	Polyester
Adhesive type	Rubber
Color	Clear yellowish
Elongation on break	100%
Maximum use temperature*	180°C

SIZE

Total thickness	64 µm
Carrier thickness	34 µm
Adhesive thickness	30 µm
Width	25 mm and 50 mm
Length	66 m

STORAGE

Shelf life: minimum 12 months in original packaging
 Storage: store in a cool, dry place in the original packaging, protected from direct sunlight and other heat sources

NOTES

*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.
 Custom sizes available upon request
