

SK2AT205-2 tape is a stronger version of SK2AT205-1, used anywhere extra strength is needed. Tape is high temperature and tensile strength polyester film coated with pressure sensitive silicone adhesive. SK2AT205-2 could be used in oven and autoclave for flash breaking application, holding down vacuum bagging materials and thermocouples. This tape is designed to perform in masking applications and chemical milling protection requiring high chemical resistance. The tape removes easily after the cure.

TECHNICAL DATA	VALUE
Carrier type	Polyester
Adhesive type	Silicone
Color	Blue
Elongation at break	100%
Maximum use temperature*	205°C

SIZE

Total thickness	80 µm
Carrier thickness	50 µm
Adhesive thickness	30 µm
Width	25 mm and 50 mm as standard
Length	66 m

STORAGE

Shelf life: minimum 12 months in original packaging
 Storage: store in a cool, dry place in the original packaging, protected from direct sunlight and other heat sources

NOTES

*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.
 Custom sizes available upon request
