

SK2AT205-8

High strength polyester adhesive tape

SK2AT205-8 – high-strength, polyester tape, that combines high temperature resistance and rubber based patented adhesive for application in extreme conditions, that require high strength of tape. Solid and easy to use polyester carrier allows to remove tape without rupture. High temperature, non-silicone adhesive provides clean removal without surface marks. This tape suits perfectly processes where no silicone is allowed.

TECHNICAL DATA	VALUE
Carrier type	Polyester
Adhesive type	High temperature rubber
Color	Green
Elongation at break	120%
Maximum use temperature*	205°C

SIZE

Total thickness	175 µm
Carrier thickness	125 µm
Adhesive thickness	50 µm
Width	25 mm and 50 mm as standard
Length	66 m

STORAGE

Shelf life: 12 months minimum in original packing.
Storage conditions: It is recommended to store the product in cool dry area in the original packing away from direct sunlight.

NOTES

*Maximum use temperature should be determined in actual process conditions. We recommend to test the product before use in serial production.

This product is not recommended to use at long-term external environment conditions.

Packing: in rolls packed with shrinkable plastic film. Then in paper cartons.
