

SK2AT60-1 is a general-purpose, double-sided holding tape made from a cloth carrier coated on both sides with a rubber-based adhesive. It is designed for temporary fixing tasks such as securing honeycomb cores during machining, spiral wrapping in resin infusion processes, and attaching the SK3TUT-1 table protection sheet to worktables.

TECHNICAL DATA	VALUE
Carrier type	Cloth
Adhesive type	Rubber
Color	Natural
Elongation at break	8%
Maximum use temperature*	60°C

SIZE

Total thickness	271 µm
Carrier thickness	177 µm
Adhesive thickness	88 µm
Width	25 mm and 50 mm
Length	33 m

STORAGE

Shelf life: minimum 12 months in original packaging

Storage: store in a cool, dry place in the original packaging, protected from direct sunlight and other heat sources

NOTES

*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.
