

SK2PP200-3

Economical polyester peel ply with no coating

SK2PP200-3 is a polyester peel ply designed to be drapable yet provide superior strength. It is used to texture the surface of a composite laminate. The peel ply surface is helpful for secondary bonding or painting of the composite laminate. SK2PP200-3 has no coating, assist or eliminate the need for sanding or abrasing on your composite laminate. The fabric is scoured and heat set to remove most contaminates and reduce shrinkage.

TECHNICAL DATA	VALUE
Material type	Polyester
Color	White
Stripes	Blue / red
Surface weight	92 g/m ²
Weave style	Plain
Recommended use temperature	190°C
Maximum use temperature*	205°C

STORAGE

Shelf life: unlimited.

Storage conditions: store at 10–30°C in original packaging, shielded from direct sunlight and heat sources

NOTES

*Maximum use temperature depends on specific process conditions. Verification testing is recommended prior to serial production.
Other sizes available on request
