

SK2PP230-1

High temperature polyamide peel ply

SK2PP230-1 is a peel ply, used to texture the surface of a composite laminate. The peel ply surface is helpful for secondary bonding or painting of the composite laminate. Peel ply fabrics may reduce or eliminate the need for sanding or abrading.

This product is used in various manufacturing processes of parts made of composite materials.

TECHNICAL DATA	VALUE
Material type	Nylon (Polyamide)
Color	White
Stripes	Red
Surface weight	82 g/m ²
Weave style	Plain
Maximum use temperature*	230°C

SIZE

Thickness	172 µm
Width	1630 mm
Length	100 m

STORAGE

Shelf life: unlimited.
Storage conditions: it is recommended to store at temperatures between -20°C and +30°C in original packing

NOTES

Peel plies are treated in order to remove all pollutant products (like silicones for example) which could be found on the laminate. Hot knife slitting of the 1 master is possible upon request. 1 roll is a minimum order quantity.

* Maximum use temperature should be determined in actual process conditions. The maximum use temperature depends on the duration at maximum temperature and is process specific, we recommend testing prior to use.
