

SK2VF200-E1 – is soft nylon bagging film embossed from one side with the «cracked ice» pattern. It allows for rapid air removal when placed under vacuum, eliminating need for separate layer of breather. The pattern has been developed to provide increased stiffness to assist in maintaining a breathable pattern. Bid width makes compacting large parts faster. For best results, place the raised side on top of a perforated release film against the laminate surface.

TECHNICAL DATA	VALUE	TEST METHOD
Material type	Nylon	
Color	Pink/Green	
Elongation at break*	400%	ASTM D882
Tensile strength*	95 MPa	ASTM D882
Recommended use T	200°C	
Maximum use temperature	204°C	
Materials to avoid	Phenolic resins/ Strong oxidizers	

**STORAGE**

Shelf life: unlimited

Storage conditions: store at 10–30°C in original packaging, shielded from direct sunlight and heat sources.

**NOTES**

Thickness: 75µm;

Lay flat width / Folding shapes:  
up to 1600mm – SHT  
up to 3200mm – CF

The values given in this TDS are average measurements; standard tolerance of ±15% applies to all stated figures
